**We believe**  
that face-to-face  
communication at the table  
**continues to bring**  
**people together.**

It's all about exceeding  
our clients' expectations  
and providing  
**first-class service.**

**We are free of gadgets.**

Our distinctive style is based on a combination of traditional handcraftsmanship, innovation and unique design. This has evolved through our deep understanding of what excellence means together with a high level of care and perfection invested in each design. All our products are bespoke with a focus on detail and longevity so that it can be passed down the generations.

We only use the best materials and techniques, such as eucalyptus wood, high gloss lacquer and special metal finishes with each design hand-sculpted and ideally proportioned. As each product is individually finished by hand, the workshop only produces a limited number of tables every month ensuring a high level of care and exclusivity.

Dixieme Art are a team of artists who believe in perfection and only after each detail is meticulously reviewed, the finished product leaves the workshop. Each dining table represents high quality that are synonymous with the Dixieme Art name.

Exclusive design by  
**Dixieme Art** brand

Innovative materials

**100% handmade,**  
**including** creation  
of metal shapes

Smooth transition  
of metal end  
**into the lacquered  
surface**

SMALL DETAILS  
MAKE A BIG DIFFERENCE

**Table tops** are covered  
with high gloss lacquer  
and are **perfectly polished**  
**from both sides**
