STORAGE, SERVICE AND MAINTENANCE RULES FOR DIXIEME ART PRODUCTS

- The products are recommended to be used in a room with an air temperature of +15C to +40C; relative humidity of 30-70%, without sudden fluctuations.
- It is not recommended to place the furniture in the direct sunlight.
- Do not allow metal parts to come into direct contact with water.
- It is not advised to put sharp or hot objects on the table without a heat resistant stand (mat).
- Permissible load on the edges of the table top-no more than 50 kg.
- Permissible load on the table surface is not more than 400 kg.
- It is recommended not to leave any grime or dirt on the surfaces of furniture for a long time.

- Remove dirt with water or soap solution with mandatory subsequent wiping until the surface is dry (do not use: abrasive materials, liquids containing alcohol, ether, acetone and other solvents)
- In order to remove dirt and moisture from the surface, use a soft cloth (microfiber, suede, plush, flannel, etc.).
- We recommend to apply the polishing wax to the surface approximately every 2 months (depending on the intensity of use), and on metal products every 12 months.
